Moraga's Measure WW Funds Update to our Nov. 10 article

By Sopia Braccini

The Moraga School Board voted, on November 10th, to accept the Parks and Recreation Commission's Field sub-committee recommendation to use Measure WW bond funds to improve the field at Camino Pablo Elementary School (CP).

The Board also approved the revised Joint Use Agreement offered by the Town for the sports fields; the agreement phases out Town contributions towards the maintenance of District-owned fields, which are heavily used by local youth organizations, over the next six years.

The Board also authorized Superintendent Rick Schafer to negotiate a separate Joint Use Agreement with the Town for the CP field.
